Mr. Henry Disston, Jr., of Mullica Hill, Montgomery county, Pa., has informed the Whitemarsh Hunt Club that upon the completion of his new \$50,000 residence he will turn over his present colonial home at that place to them for a club house. He will have it placed in the best of condition, and will build a race track one third of a mile long and an athletic field on the enclosure. Races on the new track will be the special feature of the hunt club events the coming season. The new dwelling will command a view of the new race track and athletic field.

Ballinger & Perrot, architects and engineers, 1200 Chestnut street, have completed drawings and specifications and invited estimates, due January 2, 1907, for the restoration of the stable recently destroyed by fire at 472-478 York avenue, for the Michael Devlin estate. The grounds will be equipped with complete modern electric lighting tower, sewer and water system. This section of the grounds will be enclosed by a hemlock fence eight feet high, and over one half mile long, the remaining 16 acres of the property, including one of the finest groves about Philadelphia, will be turned into a free picnic ground, and equipped with tables, restaurant booths, amusements for children and other picnic devices. PHILADELPHIA, WED'Y, JAN. 2, 1907

The Mechanics Fire Insurance Company, Fifth and Walnut streets, this city, has issued its calendar for 1907, which is in every way a counterpart of those issued in previous years. It is a practical business calendar, as handsome as it should be and every holiday is designated with red ink. The Mechanics is an old and conservative company, successfully managed by experienced men. Mr. Simon Martin is its president and Mr. John A. Snyder, Secretary.

BUILDING AND REAL ESTATE NOTES.

Pending the report of the building inspectors as to the feasibility of using the outer walls in the rebuilding of the Fagan School on the west side of Twelfth above Fitzwater street, which was burned Christmas eve, consideration of alternative plans to rebuild or enlarge the site and put up an entirely new building was postponed.

John R. Wiggins & Co., builders, 1215 Filbert street, have plans posted for extensive alterations to the Hamilton apartment house on the south side of Walnut east of Broad street. The first floor will be lowered and divided into stores. The upper floors will be altered to accommodate five flats. The owner is Robert N. Carson.

Herman Auth, builder and owner, 1613 Worrell street, Frankford, has broken ground for the erection of six two-story brick dwellings, 16 x 23 feet each, on the west side of Tackawanna street, above Oxford street, to cost \$9,000, and a two-story brick dwelling 16 x 38 feet at the northwest corner of Tackawanna and Oxford streets to cost \$1,600.

Wm. H. Burns, builder, Berwyn, Pa., has been awarded the contract to build the handsome new residence at Devon, Pa., for R. R. Benedict, Esq. It will be three stories high, built of stone with porches and finished on the interior in hard wood, and have tile baths, heated by hot air and contain all modern conveniences. Plans and specifications by T. Mellon Rogers, architect, Devon, Pa. Work will proceed at once.

J. S. Cornell & Sons, builders, Land Title Building, have been awarded the contract to build the Chestnut Hill branch of the free library at Germantown and Chestnut Hill avenues. It will be built of stone, one-story high, with basement and measure 75 x 80 feet. It will contain reading room, auditorium with all conveniences, and is estimated to cost \$45,000. The plans and specifications are by Cope & Stewardson, architects, 320 Walnut street. Work will proceed at once.

Miller Brothers & Company have purchased the property including the southeast corner of Twelfth and Spring Garden streets for a consideration said to be about \$50,000. The properties purchased were 1203-1202-1204-1206 Spring Garden street, covering an area fronting 80 feet on Spring Garden street, with a depth on Twelfth to Nectarine street. Upon this site it is reported that they will erect a modern six-story fireproof factory which is estimated to cost \$100,000.

The Master Builders Exchange closed up the old year on Monday last with its annual musical, vaudeville and smoker at the Exchange, 18 to 24 S. Seventh street. Previous to the entertainment a luncheon was served. The vaudeville was a great success and enjoyed by a large number of members and friends. The committee in charge was as follows: Wm. J. Reynolds, John R. Hulm, A. B. Barber, Wm. J. Collins, Frank H. Reeves, John R. Wiggins, Frank R. Whiteside and George W. Field.

Jos. Dyson, builder, Ardmore, Pa., has been awarded the contract to build the new Young Men's Christian Association building, at Ardmore, Pa. It will have a frontage of 50 feet on Lancaster avenue and a depth of 150 feet. It will be three stories high, built of brick and contain swimming pool, gymnasium, reading and class rooms, with assembly, kitchen, etc. It will be heated by steam, wired for electricity and contain all conveniences and appointments and cost \$25,000. The plans and specifications are by Henry L. Reinhold, Jr., architect, 1004 Chestnut street.

The first move has been made in the organization of a new university in this city which will have 10,000 students. Temple College, the Philadelphia Dental College and Garretson Hospital will merge into one of the largest educational institutions in the world. Within a few weeks application will be made for a charter to combine the two schools. Many improvements are contemplated under the new plans. Among these are a new building for the Temple College to be built at Broad and Brown streets at a cost of \$400,000, and a new building for the Garretson Hospital.

Edwin Clarke, Chief of the Bureau of Building Inspection, has completed all arrangements for the laboratory for testing building materials. This is a new departure and will facilitate the work of the bureau and save builders and contractors considerable time and money.

Heretofore builders have been compelled to have materials intended for use in the erection of large buildings examined by private firms. This work will be done by the city in the future. The laboratory will be equipped with every necessary device and apparatus needed to ascertain the quality of materials submitted to the bureau for inspection. A sample room will be added to the laboratory and samples of every kind of building material approved by the bureau will be kept.

Plans for the proposed new club house for the Manufacturers Club, to be built on the old Bellevue site at the northwest corner Broad and Walnut streets, have been drawn and found satisfactory. They provide for a building with a frontage on Broad street of 100 feet and a depth on Walnut street of the same distance. The present home of the Manufacturers adjoins the old Bellevue and it is thirty feet on the front, added to the old hotel's seventy feet depth, makes a square plot of ground. A meeting will be held this evening, Wednesday, January 2d, for the members to vote on the proposition to purchase the old hotel and erect a new club house on the site. Alfred E. Burke is chairman of the Committee of Fifty, and has been working on the project for some time. Practically the only question which remains to be determined is the method of financing the project, as the sentiment of the members of the club is unanimous in favor of the purchase. The Manufacturers' Club holds an option on the old Bellevue site, and it is expected the transfer will be made this month. The site is now owned by a syndicate, which bought it two years ago for \$90,000. Verner & Co., bankers, with offices in the building, P. F. Rothermel, Joseph M. Huston, a Philadelphia architect and others are members of the syndicate. Taxes and interest on the capital invested have made the property an expensive one to carry. This proposition will involve an expenditure for the club of \$2,000,000.

Metzger & Wells and John R. Wiggins & Co., builders, have revised plans posted for the \$50,000 abattoir, to be built at the southeast corner of Thirtieth and Market streets for the D. B. Martin Company. The plans provide for a modern six-story structure of brick and fireproof construction, 100x170 feet. Bids due January 5th.

THROUGH PENNSYLVANIA

PHILADELPHIA, WED'Y, JAN. 9, 1907

With a full paid up capital of \$500,000, The company's statement of January 1st, 1907, which appears in this issue, shows that its assets, exclusive of trust funds and trust investments, now amount to \$84,107.42, while its surplus amounts to \$205,000.00 and its undivided profits amount to \$42,709.49, while the company's deposits amount to \$9,051,457.93. The company's investment of trust funds now amounts to \$3,572,307.76. Trust funds undivided awaiting distribution amount to \$68,207.15. Total amount of trust funds \$3,640,604.91. This amount, however, does not include corporation mortgages, nor trusts of municipalities and municipalities amounting to \$1,706,760.00, held by the company as depository and trustee. The growth of this company in the past quarter of a century is not only remarkable, but it shows the fostering care with which its business affairs have been managed. Its statement merits a careful perusal.

In 1844 a manufacturing Paint and Varnish and Builders Supply House was established in this city, whose name is now famous for the quality of their goods. The products of their factories have found ready markets in all parts of the world, and they have kept in constant touch with that progression which has marked this country's rapid advance since the old Independence bell first sounded the keynote of American Liberty.

The antiquity of the firm of Samuel H. French & Company, York ave., Fourth and Cal-
fornia streets, represents the foundation of
strength upon which each year has builded in
security. Indeed there is no such business
concern in the city more modern in its methods
or more vigorous and careful in its way of
meeting the requirements and wishes of its
customers, no matter whether the order be
for a car load of French's Selected Calced
Plaster or French's Crown Paint or
for a single can of the famous Buckle
White Lead, or a gallon of French's

We are in receipt of Messrs. Samuel H. French & Company's desk calendar for 1907, which, on its fly leaf, bears the same greeting that heads this notice of the compliment they have shown this journal.

10,804 new buildings of all kinds costing exclusive of the cost of the land \$33,327,536.00, against 9880 in 1905 costing \$29,506,138, an increase over 1905 of 924, and an increase in the amount of the investment of \$3,821,398.00.

2662 alterations and additions (costing \$390,000 and over) costing \$3,993,000.00 against 2409 in 1905 costing \$3,613,500.00 an increase in these improvements over 1905 of 253 in number and \$379,500.00 in the investment in improvements of this character.

26,183 transfers of real estate bearing a value of \$120,878,304.09, an increase of the number of transfers over that of 1900 of 4.780, while the difference in the value of the property transferred is \$20,870,292.07.

The complete record of building operations, and transfers of real estate for 1906 is given with more than usual satisfaction. 1880, the banner year heretofore for house building in the history of the City is not only badly beaten but it can no longer be referred to as a reference year of importance in emphasizing the growth of Philadelphia.

The future influence this enormous production of new buildings, of which the most are for dwelling purposes, is problematical, for the whole question hinges on the industrial interests and in this respect past experience as a lesson to the venture some should have considerable weight.

It is not necessary to become pessimistic, neither would it be wise to conclude that the phenomenal tide of immigration to this country has no ending or that the construction of new buildings, railroads &c., can go on at the same terrible rate forever.

When we realize that the product for 1906 of new buildings intended for dwelling purpose amounts to 10,207 and actually provides, on a basis of five persons to each dwelling, for the housing of 51,035 persons, the reader must stop to consider the difference between this provision and the probable increase of population.

It will be noticed that there were 9105 two-story dwellings built in 1906 and this statement is important inasmuch as there were in 1889 only 7405 a difference of 1655 in favor of 1906, while in the three-story end of the proposition there are 93 less in 1906 than in 1889. This statement is worth favor in showing the change of public sentiment in favor of the two-story dwelling.

The whole country is a furnace glowing with the heat of business energy, Gould says it is bound to continue in the same condition all through 1902. Fish says that a crisis is threatened. We do not agree with either of these gentlemen, for while shrinkage must come it will be gradual, beside which our surplus grain products on the one hand and the wide open European demand for them on

The transfers of real estate last year, amounting to over \$129,000,000, must astonish our readers as they have astonished us, for all previous records are broken to such an extent as to establish the buying sentiment of 1906 without a precedent in the history of the City.

We give our yearly table of two, three and four-story dwelling construction since 1887 inclusive:

	Two-story Dwellings	Three-story Dwellings	Four-story Dwellings	Total
1887	4590	1629	3	6222

Broker George H. Sales, of Fox Chase, has acquired for a New York syndicate six farms aggregating 445 acres, east of Philmont Station on the New York branch of the Reading Railway, which will be laid out as a suburban resort, similar to that at Tuxedo Park, N. J. The properties which were acquired for the syndicate include the Smedley, Burns, Tomlinson, Lawler, Dempsey and Satterman farms, and cost upwards of \$100,000. The land is attractively situated in the Huntingdon Valley, with to acre villa sites. Large sums will be expended in improvements. Roads will be cut, a heating and lighting plant erected, and space provided for an artificial lake.

A petition was filed in the Orphans Court last week by Ira J. Williams, attorney, for an order to sell the property at the southeast corner of Thirteenth and Market streets, for \$1,750,000 to Congressman Daniel F. Lefcan, of York, Pa. The provision of the agreement states that the owner must file a bond agreeing to erect a modern structure on the site, not to exceed \$500,000. The property includes the stores at 1232 to 1240 Market street and 7, 9, 11, 13, 15, 17 and 19 South Thirteenth street. The lot measures 82x190 feet. Daniel F. Lefcan is a candy manufacturer of York, Pa., and it is reported that he has engaged J. A. Dempwolf, architect, of York, Pa., to prepare plans and specifications for the erection of the new structure. (Previously noted)

The building committee of the new Farmers' and Mechanics' Trust Company, of West Chester, Pa., held a conference on Wednesday morning last, and awarded Thomas M. Seeds, builder, 1207 Race street, the supervision to erect the new home for the Trust Company and the Farmers' National Bank at the corner of High and Market streets, West Chester, Pa. The building will be a modern stone structure and cost about \$100,000, exclusive of the vaults. Mr. Seeds will take charge of the work, receiving a price for his services as builder, and submitting the bills to the owners of the property, who will pay them. Mr. Seeds will meet with sub-contractors, and make agreements with them, that all may be ready to go to work as soon as the old building is vacated, after the first of April.

A number of business and professional men have secured a charter for a club, to be known as the Philmont Country Club. The club house will be at Philmont just beyond

Jenkintown, Pa., where 105 acres of land have been purchased. It will be a handsome three-story structure, built in the English style of architecture. Ten tennis courts and a base ball diamond will be laid out, and squash courts, bowling alleys, both closed and open. Facilities for every form of outdoor and indoor games will be provided.

The plans and specifications were prepared by Horace Trumbauer, architect, Land Title Building. It is expected that the contract for this work will be awarded shortly, and work will proceed as quickly as possible. The officers are Ellis A. Gimble, president; Jack Ispen, vice-president; Ely K. Seig, treasurer, and Charles Edwin Fox, secretary.

THE DE FRAIN SAND COMPANY TO ENLARGE.

The pressure of business has been so great that the De Frain Sand Company, now located at Otis street wharf, is compelled to increase its facilities. With this object in view, the company has purchased the pier at Beach and East Berks streets, Delaware river, on which will be placed improvements to cost about \$50,000. The improvements will include the remodeling of the main building for storage purposes and modern sand shutes will be erected. The pier itself will be improved and enlarged. Two of the old buildings now on the property will be demolished. The pier is now known as 67 North Wharves. The company will also make alterations and additions to their property at Christian street wharf, Schuylkill river.

The Penn Mutual Life Insurance Company, of this city, has re-elected its old board of trustees, which in turn has re-elected the same gentlemen as the company's official staff, who have so creditably filled the offices heretofore. The names of those elected for 1907 are given in the company's official announcement, which appears in our advertising columns.

THE GERMAN-AMERICAN CHARITY BALL.

If charity covers a multitude of sins, the members of the old Maennerchor Society, of this city, have certainly covered every sin of both commission and omission of which they have been guilty for nearly a quarter of a century, for the proceeds from their regular annual charity ball have not only extended in almost every conceivable direction, but the charity is given with unstinted hands and in considerable amounts. This year the ball will take place on February 4th next, at the Academy of Music. Tickets can be obtained from any of the society managers or from the secretary, Mr. Chas. H. Breibarth, 809 Spring Garden street, and at the box office on the night of the ball. See advertisement.

ARCHITECTS NOTES

Harrison & Schreiber, engineers, 416-19 Harrison Building, announce that the contracts for the installation of the water and sewer systems, at Beechwood Park, have been awarded to E. J. Kerick, 228 Horter st., Germantown. The sewer tank will be constructed of brick and several hundred feet of 8-inch glazed terra cotta tile will be required in connection with this work. Hydrants and pressure pipe and concrete foundation work will also be installed in connection with the water system. The contract for the erection of the tank and tower, has been awarded to E. F. Schlichter & Co. The York Safe & Lock Company are figuring on the construction of a brick vault and the furnishing of the necessary fire proof doors. The bids for the erection of the boardwalk and fence, requiring some 200,000 feet of lumber, were all considered excessive and further bids will be called for later in connection with their construction.

J. Horace Cook, architect of the Board of Public Education, is working on plans for a new school to be built at Eleventh and Venango streets, and be known as Taylor Public School. It will be three stories high, built of brick and stone, and contain eighteen divisions of 100 square feet each, and contain eighteen divisions of 100 square feet each, and contain eighteen divisions of 100 square feet each.

The work of erecting the projected new Italian Roman Catholic Church, on the west side of Broad, below Ellsworth street, will be started in the near future. It is expected that in a short while an architect will be commissioned to prepare plans and specifications for this handsome new edifice, which is to be built at a cost of \$100,000. The Rev. James F. McGowan, of the Augustinian's Order, will be the pastor. The name of the new church will be the St. Rita.

Geisler, architect, Perry Building, has completed plans and specifications and invited bids for a nurses' home for the Samaritan Hospital, to be built at the northwest corner of Ontario street and Park avenue. It will be three stories and basement, and measure 34 x 80 feet, and be constructed of brick, stone and steel, or re-inforced concrete and will be fireproof, and contain all modern improvements. Bids due January 28th, at 3 P. M. The following builders are bidding: John R. Wiggins & Co., Metzger & Wells, A. Scranton, H. E. Grau & Co., Cramp & Co., E. J. Hedden, Roydhouse, Arey Co., Thomas Reilly, Herbert Havens, Charles Yundt, E. F. Fonder Co., Smith, Hardican Co., Lynch Brothers, and M. P. Wells.

Franklin Keagy, architect, Chambersburg, Pa., has prepared plans and specifications for a three-story store and dwelling, 37 x 70 feet, to be built at Chambersburg, Pa. The front wall will be of artificial rock face stone, with brick walls on the sides and rear, with metal cornices. The interior will contain all modern

conveniences, and be heated by hot air. The contract price is \$6,180 and the contract was awarded to the architect. The owner is Mr. McClure Funk of N. Second street, Chambersburg, Pa. The same architect has also prepared plans and specifications for a three-story brick double building, to be built at Chambersburg, Pa., for the Faucet Lodge, I. O. F. The third story will be used as a lodge room. Bids will be invited later.

George E. Savage, architect, 401 Chestnut street, is working on plans for a new residence for Dr. Pratt, to be built at Coatesville, Pa. It will be three stories high, in the English style of architecture, and be constructed of brick and rough cast, and measure 40 x 60 feet. It will have porch on the front, the interior will be in hardwood finish, with open plumbing work, tile baths, and all conveniences. Will be ready for bids in about two weeks' time. He also is working on plans for a new warehouse for Blasius & Sons, (manufacturers of pianos) to be built at Woodbury, N. J. It will be one-story and basement high, and measure 85 x 250 feet, and be constructed of brick and slow burning mill construction and have modern appointments. Will be ready for bids in a short time.

A site has been secured and plans will be prepared, for the erection of a new burlesque theatre in West Philadelphia. The promoters of the scheme are now on the lookout for a manager, and overtures have already been made to Col. Sam. Dawson, who ran the Bijou Theatre, on Eighth street, last season. The presence of a new burlesque house, swelling the total in this city to five, is said to mean also that the Lyceum Theatre will abandon musical entertainments and be devoted next year to vaudeville. There will still be five burlesque theatres, however, if a probable disposition of the Bon Ton Theatre on Eighth street, goes through. It is stated that J. G. Jermon, who runs the Lyceum, proposes taking charge of the Bon Ton, making radical alterations there, and operating it as a burlesque house.

Mrs. W. Hinkle Smith, 2025 Locust street, has adopted an unique method of raising funds for the erection of a Sailor's Club House, or Home at Point Breeze. She has compiled a cook book of rare old receipts, which she is selling at \$1 per copy. These recipes come from old Philadelphia and Maryland families, from whom Mrs. Smith has coaxed them. They are now being offered at a figure which many of the owners of a single one would consider but a mere fraction of its real value, and money is being raised at the same time for a worthy object. It is the purpose of Mrs. Smith to raise \$10,000 for the construction of a home, for sailors and seafaring men, wherein amusements and comforts can be had by these men. At present there is no place of this character.

It is expected that Thomas Dolan, president of the United Gas Improvement Company, whose Point Breeze Works adjoin the grounds of the Atlantic Refining Company, will donate a site for the erection of the proposed new building.

Wilson, Harris & Richards, architects and engineers, Drexel Building, have completed plans and specifications and invited estimates for alterations and additions to Fels Co. plant, at Seventy-third and Woodland avenue. The following builders have been invited to bid: Appleton & Burrell, Cramp & Co., William R. Dougherty, Burd P. Evans & Co., H. E. Grau & Co., Fred. A. Havens Co., J. E. & A. L. Pennock, Thomas Reilly, and John R. Wiggins & Co. Bids due January 28th, at 3 P. M. They also have completed plans and invited estimates for a handsome new chapel to be built on the grounds of the Presbyterian Home, for Aged Couples, at Bala, Pa. It will be one-story and gallery high, built of stone with slate roof and have the usual church furnishings. The following builders have been invited to bid: E. J. Hedden, J. E. & A. L. Pennock, Fred. A. Havens & Co., Thomas Reilly, H. E. Grau & Co., W. R. Dougherty, Appleton & Burrell, and George A. Sauber. Bids due January 31st.

Ralph E. White, architect and engineer, Pennsylvania Building, is working on plans for a handsome new parochial school, to be built at Manayunk, Phila., for St. Mary's Roman Catholic congregation. It will be three stories and basement high, 68 x 140 feet and be built of brick and stone, and will be in the Romanesque style of architecture. There will be six class rooms, with toilet and wardrobe rooms for each class, on the first and second floors. There will also be located on the second floor a kitchen. The third floor will contain an auditorium with platform and dressing rooms, etc. The auditorium will seat 1000 persons. It will be heated by steam, wired for electricity, and contain all the up-to-date improvements. He will be ready for bids in about one month's time. He also has completed plans and specifications and sent same to the owner, Mr. Lloyd O. Watson, of Salisbury, Md., who will take bids for alterations and additions to his residence at that place. Plans provide for moving the present building back, the erection of an addition in the front, to be two stories and attic high, and measure 20x48 feet. The interior will be in hardwood finish with open fire-places and all modern improvements. The old building will be re-modeled and have up-to-date appointments. He is also working on plans for two colonial residences, to be built at Wayne, Pa., at a cost of \$15,000 each. They will be three stories high, built of stone and frame, with porches, hardwood on the interior, tile baths and all modern improvements.

BUILDING AND REAL ESTATE NOTES

A number of Councilmen, last week accompanied representatives of the City Parks Association on a tour of inspection, along the proposed lines of the Cobbs Creek boulevard and parkway, which is planned as the second link in the comprehensive system of drives and parks, formulated by the City Parks Association. An ordinance was passed on June 27, 1904 last, placing upon the surveys, a plan for a drive and park comprising the land along Cobbs Creek, between City Line avenue and the Schuylkill River. There is a provision setting aside \$500,000 for park purposes in the recently approved loan bill of \$13,500,000. Advocates of the "City Beautiful" have accordingly asked that \$200,000, of this sum be appropriated for the Cobbs Creek plan; a like amount for the Pennypack park and the remaining \$100,000 for small parks throughout the city. This plan, as mapped out on the city surveys, provides for a boulevard 100 feet wide, beginning at Sixty-third and Market streets, and running south on the first-named thoroughfare to Federal street, then west along Federal to Fifty-eighth street, and south to Baltimore avenue. From this point it is to extend to Hoffman avenue, to Fifty-ninth street, to Florence avenue. Then it is to follow the line of Cobb's Creek to Woodland avenue. Included in the plan is the purchase of the adjoining tracts of land to the Delaware County line. The parkway would extend in this section a distance of four miles and comprises an area of about 128 acres. Councilmen Connell, of the Fortieth ward; Buchholz, of the Twenty-ninth ward, and Pierce, of the twenty-ninth ward, spoke in favor of the plan, and an address was also made by Andrew Wright Crawford, of the City Parks Association.

Chas. E. Fitcher, contractor, 6215 Woodland avenue, has a contract to build two, two-story brick shops, 16 x 36 feet, on the south side of Simpson street, above Woodland avenue, to cost \$1500.

John C. Knox, builder, 11 South Fifty-second street, and Real Estate Trust Building, has plans posted for the ten dwell-

ings, to be erected on the north side of Pine street, above Fifty-first. They will be three stories high, with porch fronts, hardwood on the interior, with all improvements.

Frank E. Wallace and D. W. Sperry, builders, have submitted bids to Horace Trumbauer, architect, Land Title Building, for alterations and additions to the residence of W. W. Fretz, Esq., at Jenkintown, Pa. Plans provide for interior and exterior alterations to the present residence.

Jacob Myers & Sons, builders, Witherspoon Building, have been awarded the contract for alterations to the Hotel Hamilton, at 1332-34 Walnut street, for R. N. Carson, Esq. Plans provide for two stores on the first floor, and general interior remodeling. The five upper floors will be altered into housekeeping.

G. W. Shisler, builder and owner 2300 S. 11th St., has broken ground for the erection of forty-seven two-story brick dwellings, 14x26 ft. each, Nos. 2508 to 52 and 5909 to 55 S. Fairhill street, to cost \$56,400, and a two-story brick store and dwelling, 15 x 40 feet, at the southwest corner of Fairhill and Shunk streets, to cost \$2000.

Jas. J. Allen, builder, 234 Mint Arcade Building, is requesting sub-bids for an operation of 50 three-story dwellings and eight three-story stores, to be built in Germantown, Phila. They will measure, 16 x 60 feet and the stores 16 x 65 feet, and be built of brick and contain all modern improvements. Mr. Allen is now ready for sub-bids.

Mr. Frank R. Tobey, vice-president of the Employers' Indemnity Company of Philadelphia, located in the Stephen Girard Building, has purchased a farm of 100 acres in Springfield township, Delaware county, Pa., from C. P. Peters & Sons, brokers. Mr. Tobey will improve the property and use it for his summer residence.

The Pennsylvania Railroad has purchased through a Philadelphia real estate company, a large tract of land at Fifty-eighth street and the Main Line, for \$39,700. It is stated that this tract is to be a part of a large freight yard and storage station for the new low grade freight line, which now ends at Glen Loch, this county, and which it has been anticipated was to be continued to Philadelphia.

Mr. Samuel P. Ferree, president of the Real Estate Society, 812 Walnut street, states that there is no truth in the report that a hotel will be erected on the old Sharpless property, at the corner of Eighth and Chestnut streets. Mr. Ferree says that negotiations are almost completed for the transfer of the property to the Crystal Palace Company, just organized for the exploiting of amusements.

Mrs. Sophia E. Cox, 2031 Delancey street, has offered to defray the entire cost of renovating and beautifying the interior of the Protestant Episcopal Church, of St. James, at Twenty-second and Walnut streets, of which Rev. William C. Richardson is the rector. The proposed work to be done at the expense of Mrs. Cox, at a cost of not less than \$50,000. The new work will conform to that now in the church. Contracts not yet let. The

above improvement is intended by Mrs. Cox as a memorial to her husband, who was one of the oldest parishioners of St. James Church.

Frank E. Wallace & William R. Dougherty, builders, have plans posted for two residences, to be built at St. David, Pa., for Dr. Richard H. Harte. One of the houses will be three stories high, 44 x 95 feet and be built of brick and stone, with porches on the front and side. The interior will be in hardwood finish, with tile baths and all conveniences. The other house will be built of frame with stone foundation and be three stories high, with all improvements. Bids due February 1st. The plans and specifications are by Cope & Stewardson, architects, 320 Walnut street.

William Steel & Sons Company and Cramp & Co., builders, are estimating on plans for the large building to be erected at 1211-13-15-17 Arch street, for the Boyertown Burial Casket Company. The building will be of re-inforced concrete construction and will cover an area 80 x 120 feet, running back to Appletree street. The first floor will contain the offices and show rooms of the company and the remainder of the building, which will be ten stories high, will be devoted to manufacturing and storage purposes. The property to be demolished to provide room for the new building represents, with the lots, an assessed valuation of \$106,000, 1215 and 1217 having been purchased for about \$150,000 and 1211 from Anna B. Gray for \$50,000.

Ballinger & Perrot, architects and engineers, 1200 Chestnut street, have awarded contract to H. Voigt, 2323 Girard ave., for the restoration of the stable recently destroyed by fire at 472-78 York ave., for the Michael Devlin estate. The building will have a frontage of 80 ft. on York avenue, and a depth of 47 feet. It will have three stories with walls of brick with bluestone trimmings and columns, floors and roof of wood construction. The new building will make provision for fifty horses with wagon room, and a portion of the stalls on the first floor, and the balance of the stalls on the second floor, the horses obtaining access to same by means of an inclined runway. The third floor will be used for wagon storage and for hay and feed room. A wagon lift will be installed. Work of demolishing has already begun. They also have awarded the contract to Geo. Bachmann, Camden, N. J., for the erection of an additional story to the building of the Highland Worsted Mills, at 9th and State st., Camden, N. J. The addition is 55 feet by 150 feet. The work will be performed by means of raising the entire roof by degrees without disturbing the roof covering and exposing the present building to damage from the elements. When completed, the altered portion will conform to the adjoining building in height and style of construction. Preparations will begin at once for getting all the materials on the ground, but work will not be commenced until March 15, and will then be completed with the shortest possible time, so as not to disturb the business of the Highland Worsted Mills.

The Board of Managers of the Whosoever Gospel Mission for Fallen Men, located on East Stafford street, Germantown, have obtained the extensive property known as Chelton Hall, on East Chelton avenue, adjoining the institution. It is the intention of the Board to erect a \$25,000 building in the rear of the hall property, thus connecting all three buildings. The plans and specifications for the proposed new building were prepared by Broekie & Hastings, architects, 328 Chestnut street. (Previously noted in this journal.)

Broekie & Hastings, architects, 328 Chestnut street, have completed plans and specifications and invited estimates for a handsome new residence, to be built at Chestnut Hill for B. Franklin Pepper, Esq. It will be in the colonial style of architecture and be two and a half stories high, and measure 27 x 111 feet, built of brick, with porches on the front and side. The interior will be in hardwood finish, with tile baths, open fireplace, wired for electricity. Bids due February 13th. The following builders are bidding: J. S. Cornell & Sons, F. L. Hoover & Sons, Inc., and Appleton & Burrell.

George U. Rehffuss, architect, 1524 Chestnut street, has prepared plans for a large auditorium to be erected by a syndicate headed by Walter Pincus, at the southeast corner of Broad and York streets. It will be one-story and basement high, built of iron, glass, and concrete, and will embrace an area of 250 x 150 feet. The plans provide for a floor space containing 40,000 square feet, which will be utilized as a skating rink, and for

exhibitions, conventions, balls and other amusements purposes. The building will cost upwards of \$100,000 and bids will be invited soon for its erection.

Stearns & Castor, architects, Stephen Girard Building, have completed plans and specifications and invited estimates for an infirmity building, to be built on the grounds of the Jewish Foster Home, Church Lane and Chew street, Germantown. It will be one story and basement high, 46 x 34 feet, and be constructed of stone with slate roof, and contain four wards, with all modern appointments. Bids due February 12th. The following builders have been invited to bid: Henry E. Baton, William Christy & Son, William R. Dougherty and A. Raymond Raff.

George I. Lovatt, architect, 420 Walnut street, has been commissioned to prepare plans for the handsome new Italian Roman Catholic Church of St. Rita, to be built on east side of Broad street below Ellsworth at a cost of \$100,000. It will be of the Romanesque design and constructed of Port Deposit granite and marble and will measure 90 x 178 feet. The auditorium will have a seating capacity of 1000 persons. It will be handsomely finished on the interior and will be as a memorial to the late Lucas Burk. It is expected that bids will be invited in a short time so work can proceed as quickly as possible.

George B. Wilson, who recently purchased the property at the southeast corner of Fifteenth and Chestnut streets, now occupied by the Young Men's Christian Association, has had plans prepared for a new office building to go up on this site to be 32 stories high. It will be constructed of steel and re-inforced concrete. It will be 350 feet high, and have a frontage of 230 feet on Fifteenth street and 72 feet on Chestnut and Sansom streets and will be known as the Wilson Building. It is expected that the Philadelphia Stock Exchange will occupy quarters in the new skyscraper. One of the important features is to be a news exchange, to occupy quarters in the central lobby of the street floor. It will be occupied with elevators and be handsomely finished on the interior and have every modern appointment. Thompson-Starrett Company, Pennsylvania Building, have prepared the plans and specifications for this structure and will probably erect the building. Operations on the new skyscraper will be begun next October or in April of 1908. This will depend on the time of removal of the Young Men's Christian Association to its new headquarters on Arch street. The association has the privilege of vacating at either of these periods.

THE SAND-LIME BRICK.

It is singular that the commercial as well as the economical value of a brick made of sand and lime remained an unknown quantity notwithstanding the centuries that have elapsed since the biblical brick, made with straw, were first manufactured in Egypt. It was the good fortune of a New Jersey yankee who first appreciated the true value of the sand-lime brick and as action and thinking represent prominent features of yankee character, the formation of a strong company to manufacture and market the product was a natural result—in the way of interpolation we desire personally to say that we have for weeks this winter watched with interest a large pile of sand-lime brick, which has stood exposed to the winter weather in front of the new Forrest Theatre, now in course of erection at Broad and Sansom streets, and we are prepared to say that they were not effected a particle and we are assured that had this self-same pile of sand-lime brick been submerged in water for the same period the result would have been the same—it is said that there is nothing new under the sun, but it can also be safely said that if some other fellow ever made a sand-lime brick before the present one, he must have been considerable of a chump, or else half the buildings that have been erected since the first discovery—if there was one—would have been built of sand-lime brick. As an evidence of the popularity of the sand-lime brick, we are pleased to announce that the Sand-Lime Brick Company, Tancy, below Pine street, has received the fourth order for face brick to be used in the new buildings at the United States Military Academy, at West Point, N. Y. After tests at the Watertown Arsenal, their brick have also been selected for the new barracks to be erected at the Sandy Hook Proving Ground, Fort Hancock, N. J. They have also received orders for brick for the St. Columba Church, at Twenty-fourth street and Lehigh avenue, and the Jefferson Hospital, at Tenth and Sansom streets.

THE SEVENTY-FIRST ANNUAL STATEMENT OF THE DELA- WARE INSURANCE CO.

It's an old maxim among financial men to take good care of the principal, and the interest account will take care of itself.

If this holds good as to money, why should it not apply to fire insurance? The cost of premiums is but a small matter when safety is considered, as many a sufferer through serious fire loss knows by experience.

Read the statement of the Delaware Insurance Company of this city, which appears in another column of this journal, and realize for once at least that ability in the management and judgment in the selection of risks, as well as financial ability and loyalty to the policy holder without evasion or subterfuge, are the cardinal virtues which create confidence and patronage. These are the creative forces behind the Delaware, as its many millions of dollars paid to policy holders since its organization, in 1836, will show. The company's office is at the southeast corner of Third and Walnut streets and you had better cultivate an acquaintance with its officers.

At a banquet of the alumni of the Medico-Chirurgical Hospital, which was held at Boothby's last week, and at which 300 members and guests were present, a movement was begun for the erection of a club house, containing all the best features of Houston Hall, and fraternity of the Medico-Chi. As a preliminary to the building enterprise it was decided to weld into one single fraternity all the departments of the college. The suggestion aroused the greatest enthusiasm and its success was assured by the cordial co-operation of the trustees and faculty. Dr. B. F. Devitt acted as chairman of the meeting, and Dr. W. Egbert Robertson, of the committee of arrangements, presented the proposition in detail. It is proposed to hold these "Kommers" quarterly hereafter. Dr. B. F. Devitt was elected president and Dr. R. A. Duncan secretary and treasurer.

It will involve an expenditure of about \$300,000. The first floor will be stores, while the upper floors will be devoted to spacious offices running the entire length of the building, which can be made suitable for any business. The entrance to the upper floors will be on Eleventh street. The plans and specifications are by John T. Winderm, architect, Commonwealth Building. (Previously noted.)

The Board of Freeholders of the County Asylum, at Blackwood, N. J., have awarded the contract to Abel Bottoms & Son, builders, 41 South Fifteenth street, this city, for the erection of a laundry building at that place. It will be two stories high, built of brick. On the first floor will be laundry; the second floor will contain chapel, which will seat 200 people. The plans and specifications are by Charles J. Brooke, architect, 14 South Broad street.

The city has purchased three properties to be used for a school addition. They are as follows: 1242 North Warnock street, measuring 17 x 60 feet, from Albert Naudascher, for a consideration of \$3,000; 1244 North Warnock street, measuring 17 x 57 feet, from William Peter, for \$3,500, and 1248 North Warnock street, measuring 17 x 57 feet, from Anna S. The newly organized Children's Bureau began its existence last week at 1506 Arch street. The new Bureau is the first public evidence of the work that is to be done with the money left by Henry Seybert in 1883. Under his will the fund, which now exceeds \$1,000,000, is to be used for bettering the conditions of poor, homeless and orphaned children through an organization to be known as the Seybert Institution for Poor Boys and Girls. The Children's Aid Society has joined with the Seybert Institution in the Children's Bureau. When the Arch street building is completed it will be the headquarters for the Aid Society, the Children's Bureau and the Seybert Institution, each a separate concern, but all connected in work and aims. The Seybert estate owns 113 acres of ground at Meadowbrook Pa. and plans for the model village are under way, but are not near completed. On the grounds there is a large 25 room house with a dozen smaller ones. The architects are considering the advisability of retaining the old houses and fixing them up for the home. If this cannot be done they will be torn down and new buildings erected.

ARCHITECTS NOTES

A. E. Westover, architect, Keith Building, has been commissioned by W. & F. P. Millinger, of 16 North Centre street, Cumberland, Md., to prepare plans and specifications for a new theatre to be built at that place at a cost of \$100,000. Further details later.

Architects are invited to compete for the selection of plans for a handsome auditorium building to be erected this year at Milwaukee, Wis. The sum of \$500,000 will be expended for the structure, and \$2,500 will be awarded in the form of prizes for the best designs. For further information address Wm. Geo. Bruce, Secretary Milwaukee Auditorium Board, 45 University Building, Milwaukee, Wis.

At Atlantic City, N. J., it is stated that Architects Carrere & Hastings of New York City, have been selected to prepare plans for extensive civic improvements to cost about \$500,000. An elaborate system of lighting, ornamental lagoons on the meadows, a fine beach boulevard and other improvements are included in the plans. It is said that eventually the Boardwalk will be made into a concrete esplanade.

The Mutchmore Memorial Presbyterian Church located at Eighteenth street and Montgomery avenue was damaged by fire on Saturday last to the extent of about \$35,000. The Rev. Herbert R. Burgess, pastor of the Mutchmore church states that steps will be taken to rebuild and refurnish the church at once. The Kirkaldy apartment house adjoining the church was also damaged to the extent of about \$20,000.

Brookie & Hastings, architects, 328 Chestnut street, have completed plans and specifications and invited estimates for alterations and additions to both ends of the main pavilion of the Philadelphia Commercial Museums, at Thirty-fourth and Vintage avenue. Bids due March 5th. The following builders have plans posted: Frank E. Wallace, P. J. Hurley, P. J. McDevitt, J. E. and A. L. Pennock, George A. Glenn & Co. and Edward Fay & Son.

Herman Miller, architect, 1420 Chestnut street, is working on plans in competition for the new building of the First National Bank to be erected at Gettysburg, Pa. It will be three stories high, of granite and will have bank on the first floor and offices on the second floor. The third floor will be fitted up as an Elks Hall. CONCRETE FACTORIES

Is the title of a work just published, of which Mr. Robert W. Lesley, Associate Am. Soc. C. E., is the author. The work is practically all there is in the construction of re-inforced concrete buildings. Indeed, it can be justly regarded as a text book, so thoroughly have all the systems of reinforced concrete work been handled by the author. To give a proper review of Mr. Lesley's book would require columns of space, for details are followed so closely that the results of almost every conceivable test are given as to cement in the form of mixtures and ranging in time for setting from seven to three hundred and sixty days. This feature of the book is only the beginning of a vast amount of laboratory work, involving the value of different materials from cinders to granite as a mixture, as well as the proper proportions of either to secure the best possible results.

Mr. Lesley's book informs us that a 7-inch concrete re-inforced wall is equal in every particular to one of brick 25 inches thick.

The influence of reinforced concrete work upon the labor question has, it seems, already excited the trade unions in both New York and San Francisco to a degree never anticipated, as they have already been driven to defensive as well as offensive measures to the extent that they now insist that those who do the mixing, as well as those who dump the concrete into the boxes prepared to do the forming or moulding, must be union bricklayers, at seventy cents per hour. This is certainly unionism run mad. In short, the book should be in the possession of every contractor and builder, for its facts will surely pave the way to a range of independence on the part of builders and contractors heretofore considered impossible.

The book is profusely illustrated; and we might also mention that it contains the latest French rules on re-inforced concrete, that in

itself alone being well worth the price of the book, which is one dollar, and is obtainable in Philadelphia from the Lesley and Trinkle Company, 604 to 610 Pennsylvania Building.

ARCHITECTS NOTES

Henry L. Reinhold, Jr., architect, 1004 Chestnut street, is preparing plans for a stone and rough cast dwelling, to be erected at Cynwyd, Pa., for W. L. Robins. It will be two and a half stories high, and contain all modern improvements.

It is stated that the Philadelphia Electric Company will erect a number of sub stations for the purpose of reducing the high voltage of the main plant to what is known as commercial energies. One of these will be in the neighborhood of Thirteenth and Cherry and another in the neighborhood of Fortieth and Market streets.

C. M. Autenreith, architect, 410 Walnut street, has been commissioned by the Board of Directors of Mt. Sinai Hospital, to build an addition to the rear of the hospital at Fifth and Wilder streets. It will be four stories high, 50 x 100 feet, and be constructed of brick and contain nurses' quarters, operating rooms, quarters for the physicians, and private and general wards. It will be modern in all its appointments, with steam heat, wired for electricity and is estimated to cost \$50,000.

Frank H. Keisker, architect, Perry Building, has completed plans and invited estimates for a new residence to be built at the southwest corner of Second street pike and Willins avenue, Olney, Philadelphia, for Mr. A. W. Munyen. It will be two and a half stories high, built of stone, with porches, hardwood on the interior and all modern conveniences. Bids due March 14th. The following builders have plans posted: Charles Yundt, Wilkie Brothers, Hoersh Brothers, S. Grant Erwin and Joseph Nyce, of Olney, and Joseph Ashby, of Fox Chase.

Watson & Huckle, architects, 1211 Walnut street, are preparing plans for a large flat house to be erected at the southwest corner of Forty-first and Baltimore avenue. It will be four stories high, 76 x 160 feet, and be built of brick and stone. It will be modern and up to date in its appointments and each floor will contain six separate housekeeping flats completely fitted up. The heating and lighting for each flat will be from one central plant. It will have passenger and freight elevators and is estimated to cost \$150,000. Plans will soon be ready for bids.

Howell & Holland, architects, 712 Walnut street, are preparing plans for two summer residences, one to be built at Columbus, Ohio, for E. L. McCune. It will be 40 x 60 feet, two and a half stories high, and be old English in design, built of brick and rough cast, with porches, hardwood on the interior, and all conveniences. The other is to be built at Newark, Ohio, for Carl Norsell. It will also be 40 x 60 feet, two and a half stories high, constructed of brick and half timber,

with all modern appointments and cost \$12,000.

Newman & Harris, architects, 1414 South Penn Square Building, have been commissioned by S. S. Fell, Esq., to prepare plans and specifications for his handsome new residence to be erected at a cost of \$100,000, at the southwest corner of Thirty-ninth and Walnut streets, on the site of the old Drexel Mansion (now being demolished). The house will be in the colonial design and will measure 90 x 50 feet, and will be constructed of stone.

The Board of Education at its next meeting will probably approve the action of its property committee recommending the immediate construction so far as the funds available will allow, of the new Commercial High School for Girls at Fifteenth and Mt. Vernon streets. While it is estimated that the building will cost about a half million dollars, there is only about a quarter of a million available for the building, but it is anticipated that the balance will be secured by the transfer of moneys or by having Council make an additional appropriation.

Seymour & Paul A. Davis, architects, 1600 Chestnut street, will be ready for bids soon on the new Y. M. C. A. building, to be built at Postville, Pa. It will be four stories and basement high, 92 x 134 feet, and built of brick and stone, with terra cotta trimmings (details previously noted). The same firm of architects are working on plans for an addition to the Young Men's Christian Association building at Berwick, Pa. The addition will be three stories high, 48 x 95 feet, and be built of brick and stone. It will contain a gymnasium, women's clubrooms, classrooms, dormitories, and swimming pool. The cost will be about \$30,000.

It is reported that plans are being prepared for a \$1,000,000 office building, which it is proposed to erect on the ruins of the Haseltine Building at Nos. 1414-16-18 Chestnut street, for whose purchase it is said negotiations are pending for a sum in excess of \$800,000. The property measures 54 x 230 feet. It is proposed if recent plans go through to build a fifteen story fire proof structure, with an arcade on the first floor running through to Sansom street, with a row of offices suitable for bankers and brokers on either side. This is in anticipation of the removal of the Stock Exchange before long to a location near Broad street. Interviewing the architects we have failed to conform the above report.

Duhring, Okie & Ziegler, architects, Bailey Building, have completed plans and specifications and bids have been invited for a house and stable, to be erected at Wayne avenue and Johnson street, Germantown, for Mr. John D. McIlhenny. The house will be two and a half stories high, built of stone, with slate

roof, porches on the front and sides, hardwood on the interior, tile baths, open fireplaces, hot air heating, and all modern appointments. The stable will be two stories high, built of stone. The first floor will contain stalls, box stalls, harness room, etc. The second floor lay loft and man's quarters. Bids due March 20th. The following are bidding: William R. Dougherty, William J. Gruhrer, Smith, Hardican & Company, George S. Roth & Son, R. C. Ballinger & Company, Thomas Trafford, W. J. Patterson, J. E. & A. L. Pennock and Burd P. Evans & Company.

At Washington, D. C., it is stated that Mr. O. G. Staples, proprietor of the Riggs House, Fifteenth and G streets, N. W., has commissioned Architects Speiden & Speiden, 705 G street, N. W., to prepare plans and specification for a hotel to be erected at the southwest corner of Fifteenth street and Pennsylvania avenue, Northwest. It will be ten stories high, of brick and lime stone, steel frame, open plumbing, steam heat, four passenger and one freight elevator. All modern conveniences. The estimated cost is \$1,000,000.

Architects Hill & Kendall, Corcoran Building, have prepared plans for an addition to the Security Storage Company's warehouse at 1140 Fifteenth street, N. W. Cost \$100,000. A. M. Read is president of the company. —Architects Williams & Wagner, 1330 Thirteenth street, N. W., have prepared designs for spires and other improvements to St. Patrick's Church on Tenth street between F and G streets, Northwest. Reverend Father Stafford is in charge.

Wilson, Harris & Richards, architects and engineers, Drexel Building, are working on plans for a large office addition to be erected for the Baldwin Locomotive Works on the south side of Spring Garden street, west of Broad, adjoining the present office building. It will be six stories high, with walls of brick and stone trimmings and will be fireproof and contain modern appointments.

Sauer & Hahn, architects and engineers, 1114 Chestnut street, are preparing plans for a large hide and leather warehouse to be erected at 245-47 North Third street, for Henry Sternfeld & Company. The building will be fireproof, of re-inforced concrete construction throughout and measure 46 x 126 feet, and be four stories high, and cost about \$50,000. The same firm are also working on plans for a store and office building, to be erected at Fourth and Library streets, for Vohn & McDonnell. The building will be three stories high, built of brick and stone, with store on the first floor and offices above. They also have completed plans for extensive alterations and additions to the property at 1113 Walnut street for Pyle, Innes & Barbieri.

OBITUARY

Colonel Tattnall Paulding, the late president of the old Delaware Insurance Company, of this city, whose death occurred after a prolonged illness on Tuesday, March 5th last, was a gentleman who typified the best of the old school, whose example and influence will ever be regarded as a strong feature in American history. As strong and self-reliant as a great oak, he was, nevertheless, as courtly and as gentle as a Chesterfield. Mr. Paulding was the grandson of the historic John Paulding, who was of the revolutionary party that captured the English Major Andre, while his own father was Admiral Hiram Paulding, of the United States Navy. It was no wonder then that our Paulding was among the first to respond to Lincoln's call to arms in 1861. The deceased, after serving through the war as officer and prisoner at Libby for nine months, settled in this city and engaged in the fire insurance business, and no man ever earned or more justly merited the respect and confidence of those that knew him than Colonel Tattnall Paulding.

OBITUARY

Joseph L. Caven, Esq., died at 7 o'clock on Sunday morning last, at the home of his daughter at Overbrook, in his 72d year.

There was no man in Philadelphia better known or more highly esteemed than Mr. Caven.

Through his legal attainments he was among those in the front rank at the Philadelphia Bar. As President of the Real Estate Title Company of this city he was eminently successful, displaying rare judgment as to financial matters as well as in all questions appertaining to building investments. Mr. Caven had been for years one of the Trustees of the Girard College.

He seemed in good health at the close of business on Saturday last and his death was a surprise to every one.

AN ENTERPRISING FIRM

The firm of A. & G. Bohm consists of two clever young men who over ten years ago commenced business in a small way at Fifteenth and Federal streets. Their increasing business necessitated from time to time extensive enlargement of their plant in every direction. The business is the manufacturing of sky-lights, metal cornices and all kinds of architectural sheet metal work as a specialty. These young men were practical mechanics, possessing a large share of executive ability backed by self-reliance and energy.

These requisites not only assured them business success, but supported as they were by a rigid adherence to straightforward business methods, it is not at all surprising that the firm's business career has been successful in every direction. They have always been keenly alive to the value and necessity of new and original designs. The firm has in course of preparation a new catalogue, which will contain many cuts of artistic novelties which will be sure to save its readers many brain racking efforts as well as giving a proper idea of the scope of architectural sheet iron work.

A special meeting of the members of the Art Club was held on Wednesday evening, April 3d, for the purpose of deciding whether they shall sell their property, at 220 South Broad street and erect a new modern club house, on another site, or replace the present one with an enlarged structure. A plan to tear down the present building and to put up an enlarged and up-to-date structure, at a cost of \$275,000, has strong support. Magaziner & Potter, associate architects, 137 South Fifth street, have been commissioned to prepare plans for remodeling the property at 820 North Fifth street into a school for the Northeastern Talmudtarah. The property has recently been purchased by the organization. The interior will be entirely re-arranged, and fitted up as class rooms.

Plack, architect and engineer, 1208 Chestnut street, has completed plans and specifications, and sent same to the owners, for the re-building of the Arcade Hotel, which was recently destroyed by fire, at Chester, Pa. It will be triangular shaped, and will be four-stories and basement high, built of brick and stone, and contain all modern improvements.

A tract of ground has been presented to the Abington Library Association for the site of the new library building by Clement B. Newbold, which is to be erected at a cost of \$15,000. It is situated on Old York Road, with a frontage of 70 feet, and a depth of 141 feet, and is directly opposite Summit avenue in Jenkintown, Pa. In a short time plans and specifications will be prepared and bids invited for its erection.

Howard Lloyd, Harrisburg, Pa., has prepared plans for two brick buildings, to be erected at Third and Walnut streets, Harrisburg, to replace the Duncan property and the Columbus Hotel, recently destroyed by fire. The building on the Duncan site will be three stories and fitted up for store and office purposes, the other will be a six-story structure, well finished throughout, provided with modern improvements and equipped for hotel purposes. Work will begin as soon as possible.

At Washington, D. C., the Bureau of Medicine and Surgery, of the Navy Department, has commissioned Architects Wood, Donn & Denning, 808 Seventeenth street, Northwest, Washington, D. C., to prepare plans for two

The building will have a frontage of 124 feet on Thirty-sixth street, and 78 feet on Wharton street, and be two-stories in height. The column, floor and roof construction will be of re-inforced concrete, with Barrett specification roof covering. Walls will be of brick with concrete lintels over windows and blue stone sills. A freight elevator will be installed.

A number of leading business men of South Camden, N. J., have organized a new trust company, to be located in the southern section of Camden, N. J. It will be known as the Broadway Safe Deposit and Trust Company, and will have a capital of \$1,000,000 paid in with a surplus of \$25,000. A meeting was held on Monday afternoon last to decide on a site for a building, and after the remaining stock is disposed of the new company will take action. The officers are John J. Burleigh, president; Anthony Kobus, vice president, and Lionel Simpson, Edward Schuster, John Kates, James Dougherty, George A. Frey, E. S. Stone, R. H. Comey, and Dr. A. E. Street, directors.

Jacob Naschold, architect, 1118 Chestnut street, is working on plans, and will be ready for bids in about ten days, for a handsome new edifice for the Holy Trinity Lutheran congregation, to be built on West Twenty-third street, between Elliott and Madison avenues, Wilmington, Del. It will be one-story high, 50x72 feet, and be constructed of stone and contain auditorium to seat 300 people. It will be heated by steam, wired for electricity, and have the usual church furnishings. He is also working on plans for an industrial school, to be built at Paoli, Pa. It will be three-stories high, 40x60 feet, and be built of stone. A TEXT BOOK FOR ARCHITECTS, ENGINEERS AND CONTRACTORS FREE OF COST.

Waterproof Cement and Portland Cement Lime Mortars is the title of a pamphlet recently issued by Charles Warner Company, Wilmington, Delaware, and Land Title Building, Philadelphia. This booklet contains a series of exhaustive tests, made by the Henry S. Spackman Engineering Company, of the tensile strength and permeability tests of various mixtures of Portland cement and hydrated lime. The hydrated lime used in these tests is of the Warner Company's manufacture, "Limoid."

The use of a dry hydrate of lime mixed with Portland cement is becoming quite general, owing to the many advantages and economies and to the great facility with which these two elements can be exactly proportioned and mixed dry.

The permeability of concrete is such an important factor that frequently an excess of cement is used to obtain in a measure waterproof construction; or, on the other hand, for the sake of economy in cement, the waterproof feature is sacrificed entirely.

In the tests referred to above, it is shown that by the end of 28 days all mixtures of Portland cement and Limoid carrying three parts of sand are impervious to water under the conditions imposed. The one to five Portland cement and sand mixture is exceedingly porous, while the addition of only 5 per cent. of Limoid had a remarkable effect in decreasing this permeability, and the mixtures containing 15 per cent. or over of Limoid is impervious to water.

Another important point demonstrated is in regard to cement mortars, which, made with either Portland or Rosendale cement, work very short, adding considerably to the cost of brick laying. The addition of lime paste improves the working qualities of mortars, but

is an uncertain mixture, while Portland cement and hydrated lime can be safely used in place of Rosendale cement at a much less cost.

The strengths secured by replacing from 25 to 40 per cent. of the Portland cement with Limoid, carrying 5 parts of sand, show greater on an average than Rosendale cement tests carrying only 3 parts of sand, and will produce a much freer working mortar under the trowel, and a brick-laying capacity per man hour of 20 to 25 per cent. more.

The above booklet should be in the hands of every engineer, architect and builder in Philadelphia, and will be mailed upon request to The Charles Warner Company.

The cost is \$176,000.

Select Councilman Patton will introduce, at the next meeting of Councils, an ordinance for the reconstruction of Chestnut street bridge. Plans provide for utilizing the full width of the bridge for a roadway and add overhanging sidewalks constructed on the cantilever system; also for the elimination of the steep approaches by changing the grades at each end. The reconstruction is estimated to require an outlay of \$300,000, and the money is to be provided out of the new loan.

ARCHITECTS NOTES

The Episcopal Academy has purchased four properties adjoining its present building at Juniper and Locust streets, and will erect thereon a school house for the middle and lower schools of the academy, leaving the old building for the exclusive use of the upper school. The properties are in the rear of the academy and are separated by a narrow alley, called Grubb street. They have a width of 18 feet, and a depth of 100 feet. The price paid for the new properties was \$23,000.

George I. Lovatt, architect, 418 Walnut street, has been commissioned by Rev. Bernard Phillips, pastor of St. Aloysius Roman Catholic Church, Twenty-sixth and Tasker streets, to prepare plans for a new church and parish buildings. The first building to be erected will be the church. It will be of stone, designed in the Gothic style of architecture, and will have a seating capacity of about 800. Work on the erection of this new structure will be started in the early Summer.

Watson & Huckel, architects, 1211 Walnut street, have completed plans and invited estimates for a one-story boiler house, to be built on the grounds of the Krauth Memorial Library, at Mt. Airy. It will be constructed of brick, 50 x 48 feet, and have a brick chimney, 125 feet high. The following builders have plans posted: J. E. & A. L. Pennock, Fred. A. Havens Co., A. Scrantom, and Jacob Myers & Sons. Bids due April 19th. The same firm of architects are working on revised plans for the new factory, to be erected at Seventeenth and Glenwood avenue, for H. D. Dougherty & Co.

A committee representing the parish of the Immaculate Conception, Germantown, of which William Reilly is chairman, has been appointed to have plans prepared for a large building, to cost \$50,000, to be erected on the lot on East Chelten avenue, near Chew street. The contemplated structure will be utilized as a hall, and will be two stories high. The first floor will be used for church, society meetings, and the second floor will contain a large auditorium with stage. The basement will be devoted to pool, billiards, shuffleboards, and other amusements. Ground for this new building will be broken some time in May.

Rothschild & Zilenzinger, architects, Drexel Building, plans have been accepted in competition for the remodeling of the Alexis club house, at the southwest corner of Broad and Jefferson streets, into a school house, for the Rodef Shalom congregation. Plans provide for a new front of granite and general interior remodeling. The building will be known as the Teller Memorial School and will be ready for bids soon. The same firm of architects are working on plans for a new power house, to be built on the grounds

of the Jewish Hospital, on York road. It will be one-story high, built of stone. Bids will be invited the latter part of next week.

Clyde S. Adams, architect, 1233 Arch street, has completed plans and specifications, and invited estimates for a new high school, to be built at Broadway, Monmouth and Bergen streets, Gloucester, N. J. It will be two-story and basement high, 101 x 68 feet, and be built of brick and stone and contain eight class rooms, two recitation rooms, laboratory, superintendent's office, reception room, etc. It will be heated by steam and have all modern improvements. Bids due April 22d. The following builders have plans posted: D. A. McClelland, Thomas Reilly, George F. Payne & Co., Metzger & Wells, J. S. Rogers & Co., Stanwick, N. J., and Joseph Steelman, of Bridgeton, N. J.

A movement is on foot by the members of the Ambulance Corps of the Clifton Heights Fire Protective Association to start a hospital in Clifton Heights for the benefit of those living in that section. The matter was talked of some time ago, and has been revived. A number of philanthropic ladies and gentlemen of Lansdowne, Clifton Heights, Aldan, Swarthmore and Chester have taken an interest in the project, which, if carried out, will insure a hospital in Clifton Heights. Who buy land, for improvement, at

West Collingswood, New Jersey
There's "A Boom" On Here!

The demand for houses is way beyond the supply. Houses ranging from \$2,800 to \$3,500 sell faster than they can be built. Builders and operators will find West Collingswood the surest field for building operations in this part of the country. Most desirable locality—all improvements—water, gas, electricity, sewers, pavements, frequent trains and trolley and 5-cent fare. About 200 acres for sale, on advantageous terms to builders; advances if required.

It will pay builders to investigate this.
